

# Post. Interview. Hire.

HireVue Hiring Assistant takes care of the rest.

HireVue

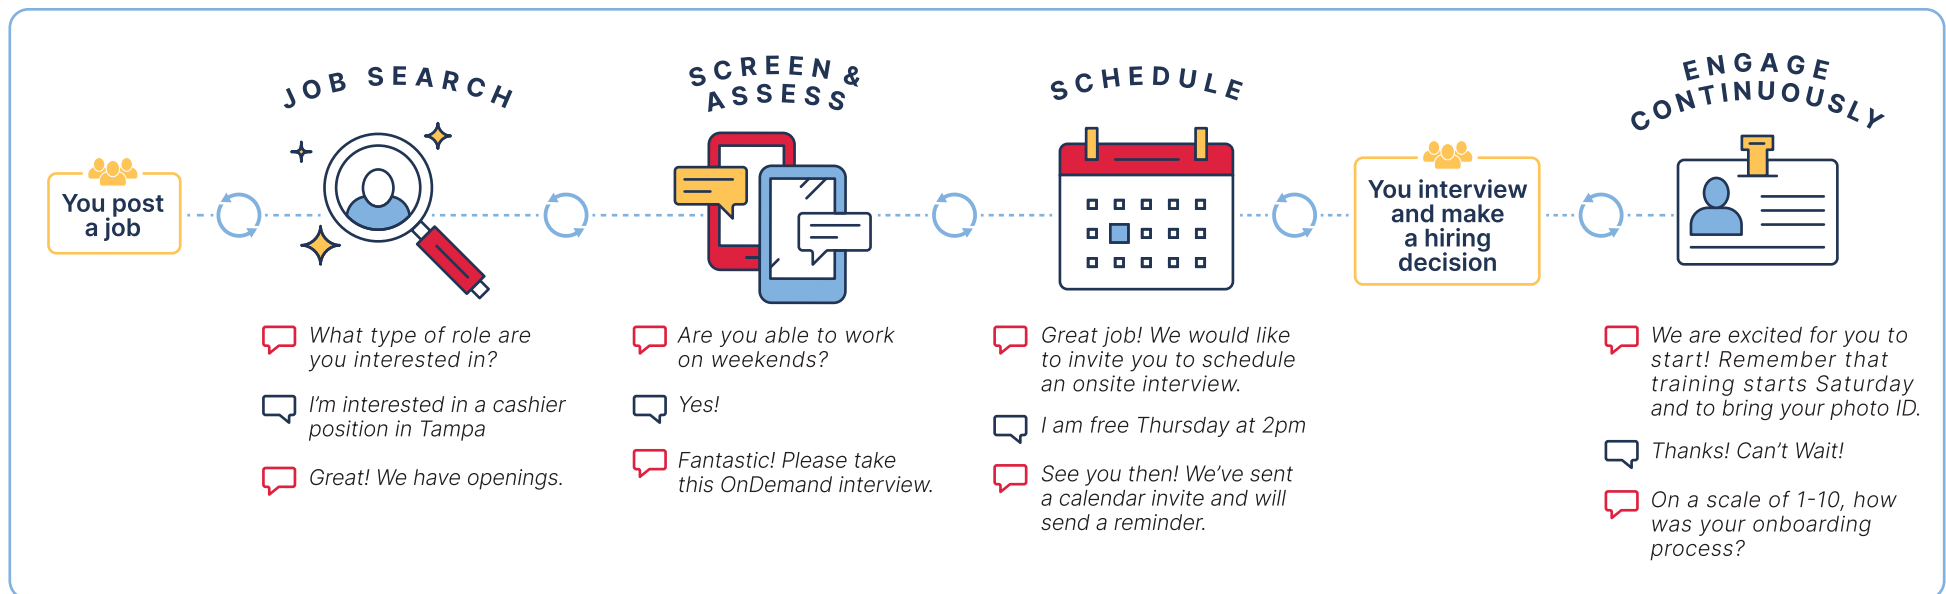

Imagine you post a job requisition, and within 24 hours, open your calendar to a schedule full of pre-qualified candidates ready to interview. When you check your ATS, statuses are automatically updating and triggering next steps. Your administrative tasks are gone, and you can finally focus on what matters - making human connections and strategic decisions.

That's the reality with HireVue Hiring Assistant. Conversational AI-powered workflow automation engages candidates through text, webchat and WhatsApp, quickly moving them through the hiring funnel.

Your personal hiring assistant is here to do what no recruiter can:

- Engage 100% of applicants
- Respond 24/7
- Automate 70% of admin tasks
- Reduce time to hire by 60%

Here's how it works.  ATS Updates  Hiring Assistant Message  Candidate Message
