We help customers to reimagine their hiring processes, and the results speak for themselves: Our solution has increased recruiter productivity by over 30%, has decreased the cost of hire by nearly 25%, and has increased diversity hire by 55%. HireVue is the premier partner in the hiring space. If that isn't enough to convince you:

PERKS:

HireVue customers who are looking for a new ATS provider will look at certified partners first

Certified integrations will enhance your brand equity

HireVue will market our strategic partnership on our website and allow you to do that same

Once certified you become a member of an elite group that is provided with early access to the HireVue product roadmap. Your influence could help to guide HireVue's future roadmap direction.

Our primary responsibility is to our customers and their candidates. Creating an amazing candidate experience is every organization's goal, and we want to help them to achieve it. Certified integrations are built with both the recruiter and the candidate in mind. The end game is an easy to use and streamlined workflow that is inclusive of all the great features that both HireVue and your organization have to offer. Some examples of how the certified integration will enhance the user experience include:

CREATING

THE BEST CANDIDATE & RECRUITER EXPERIENCE

Make it easy to assign candidates to the right interview

View real-time status updates to track the candidates' progress

View HireVue ratings, scores and recommendations within your software in a meaningful way

Enable the integration to support future HireVue enhancements

GETTING STARTED

Becoming a certified partner means that we will work together to ensure the best possible user experience to create a more meaningful and lasting relationship with our shared customer. In order to do that, some requirements will need to be met such as your ability to support our position widget. Our certification requirements are put in place to ensure a win for all parties involved. We will work closely with your organization during the certification process and provide your appropriate teams with all of the relevant information.
